

RULES & GAMEPLAY

SETUP

1. Agree a target number of Katie Tokens that a player needs to win the game.
2. Shuffle the Katies to create the deck. Place the deck facedown on the table within easy reach of all players.
3. Take the top Katie of the deck and set it aside facedown without looking at it. If you are playing a two-player game, take three more Katies and set those aside faceup.
4. Deal each player one Katie from the deck as their starting hand.
5. Katie takes the first turn.

INTRO

Katie Kollektor is played over several game rounds, in which you work your way through a variety of Katies to utilise powers and reserve the values that the different Katies have to offer.

The Katie in your hand represents the value of your current Katie, but this can change during the round as you draw and play Katies.

To win a round, you must either have the highest-value Katie at the end of the round, or be the only player left with a Katie.

PLAYER TURN

Take turns in clockwise order. On your turn, draw one Katie from the deck.

Then, choose and play one of your two Katies, resolving her power.

The played Katie stays in your play area faceup, and you keep the other Katie in your hand.

OUT OF THE ROUND

Some Katie powers knock you out of the current round; a competing Katie Kollektor has ensured you have no Katies.

When this happens, discard your Katie faceup in front of you (without resolving any Katie powers).

Until the next round, you cannot be chosen for Katie powers, and your turn is skipped.

PLAYED AND DISCARDED KATIES

It is important that everyone knows which Katies have already been played and which Katies are left in the deck, so any played or discarded Katies must always be visible to everyone.

END OF A ROUND

The round ends in one of two ways: when the deck runs out or when only one player is left in the round.

DECK RUNS OUT

After any turn, if the deck is empty, all players still in the round reveal and compare the Katies in their hands.

If you have the highest-value Katie, you win the round and gain one Katie Token.

If there is a tie, all tied players win the round and each gains a Katie Token.

ONE PLAYER LEFT

If you are the only player left in the round, the round immediately ends; you win and gain one Katie Token.

STARTING A NEW ROUND

To start a new round, repeat steps 2–4 of setup (shuffle the Katies, set some aside, and deal each player one Katie). The player who won the previous round takes the first turn.

If there was a tie in the previous round, randomly decide among the tied players who takes the first turn.

WINNING THE GAME

The game ends when one player has reached the number of Katie Tokens agreed by the players beforehand. Multiple players can simultaneously win the game.

0 - BASIC BAG (6)

A true classic. The player may choose another player and name a card other than Basic Bag. If the chosen player's hand contains that card, that player is eliminated from the round.

1 - BIRDWATCHING BAG (2)

Get out the binoculars. The player may privately see another player's hand.

2 - BOOKISH BAG (2)

Have a read. The player may choose another player and privately compare hands. The player with the lower-value card is eliminated from the round.

3 - CRAFTY KATIE (2)

Knit a security blanket. The player cannot be affected by any other player's cards until their next turn.

4 - COFFEE KATIE (2)

Pop a fresh brew on. The player may choose any player (including themselves) to discard their hand and draw a new one.

5 - CULTIVATOR KATIE (2)

Planting seeds. The player may draw two cards from the deck into their hand, then choose one of the three cards to keep for themselves and place the other two on the bottom of the deck in any order.

6 - BAKING BAG (1)

Put something in the oven. The player may insert their hand into the deck in a position they choose and draw a new card.

7 - CAR KATIE (1)

Drive by. The player may trade hands with another player.

8 - LA KATJA (1)

#Living her best life. If the player holds this card and either Car Katie or Coffee Katie, this card must be played immediately, which otherwise does nothing.

9 - BIG BAGGY BAR (1)

The Biggest of all the Baggy Bars. If the player plays or discards this card for any reason, they are eliminated from the round.
